Preface

This project documentation has been done to provide a brief idea about the project we have taken in our final year. The report of the project entitled “**Prison Management System**” has been made to enlighten the readers how this project has been developed, what tools have been used for its features, its design, analysis, etc. This report serves as an artifact to our project to the readers.

Throughout the project work, the focus has been on presenting information about the project in an easy and intelligible manner. The project can be put to use in any prison for management purpose.
